

“Psyche and the Soul: Integrating the Psychological and the Spiritual in the Maturing Imago Relationship”

3 days with Imago Relationships International Master Trainer, **Maya Kollman**

LEARN FROM A MASTER how to use the best of what psychology has to offer and to nurture a spiritual practice that supports mature Imago relationships. Through dialogue, cogent examples, experiential exercises, mixed media, and demonstrations and practice, you will learn ways to work with your couples and your partner to achieve a "new way to love."

You will sharpen the psychological lens by:

- Practicing self reflective dialogue
- Uncovering and naming the unconscious deal
- Learning ways to use this information to form true partnership
- Understanding when to use your cognitive channels and when to use your emotional channels

You will grow the spiritual/maturity lens by:

- Practicing mindfulness to become more present
- Learning techniques to grow the physical container to hold what is inside
- Experiencing ways to expand your awareness of your impact on others
- Discovering new ways to employ the senses to deepen connection
- Choosing love over fear more of the time
